

**Wanted: A film producer is looking for films and/or audio tapes shot by the soldier of life on the home front during the Vietnam War.** See the letter below for details.

Dear Bradley Wright,

My name is Margaret Champagne, and I am with the film production company Lou Reda Productions.

Since 1983, Lou Reda Productions has worked hard to preserve and share America's military history through film. The company has been a longtime collaborator with networks including the History Channel and National Geographic, producing high-quality, non-fiction programming.

Currently, we are hoping to be in pre-production for a Vietnam series for television. We are looking for 8mm and 16mm film of the Vietnam War, particularly footage shot by soldiers or individuals in-theater, audio letters, and period footage from the 1950s-1970s highlighting the home front and the average "day in the life of an American."

If you have footage or audio letters and are possibly willing to be interviewed on camera for our Vietnam series we would love to talk with you. You may contact Lou Reda Productions directly at [scott@redafilms.com](mailto:scott@redafilms.com) or 646-620-6181. To learn more about Lou Reda Productions go to [www.redafilms.com](http://www.redafilms.com).

Additionally, we would kindly like to ask that you share this note - via your website, social media platforms, or email - with your organization's members and veterans.

Thank you for your service.

Best regards,

Margaret Champagne
